PROFILE

I discovered my thing in programming and, with my curiosity and my dedication, I hope to get far in this world.

My vocation is React-made frontend, but I don't neglect the backend, of course. But should you mention a new technology, I'll want to know more immediately.

I'm a person who has an immense craving for knowledge and self-overcome.

TECH EXPERIENCE

CAIRA Education
April 2022 - June 2022
REACT, HTML, CSS, JavaScript.

My main responsibilities were Frontend Development with React and responsive design with HTML and CSS.

EDUCATION

Fullstack Developer | January 2022
Geekshubs Academy Valencia
